

A large, stylized green leaf graphic that curves from the bottom left towards the top right, set against a solid green background. The leaf is composed of a thick, dark green shape and several thin, light green outlines that suggest its structure.

VERSALA
ALVIERA

Versala, coined from verdant and sala (living room), captures a living experience where nature permeates every day—from your neighborhood to the magnificent landscapes of the Alviera estate.

Step

into
the green

Bloom and breathe
in a flourishing environment
refreshed by verdant open
spaces. From home to the outside—
a community nurturing life's
most essential connections
to nature and the communities
where we belong.

Life Grows Abundant

For more than 80 years, Ayala Land continues to set the standard for property development in the Philippines. A universe of contemporary addresses in the country bring together a range of sustainably integrated growth centers to multi-generational homes with the singular vision of enhancing land and enriching lives, for more people.

Alveo Land expands the tradition of industry excellence with a commitment to innovation, best realized through fresh lifestyle concepts and living solutions, pushing boundaries in dynamic communities and diverse neighborhoods across the nation.

ALVIERA
Urban Living in Nature

Estate

Urban Living in Nature

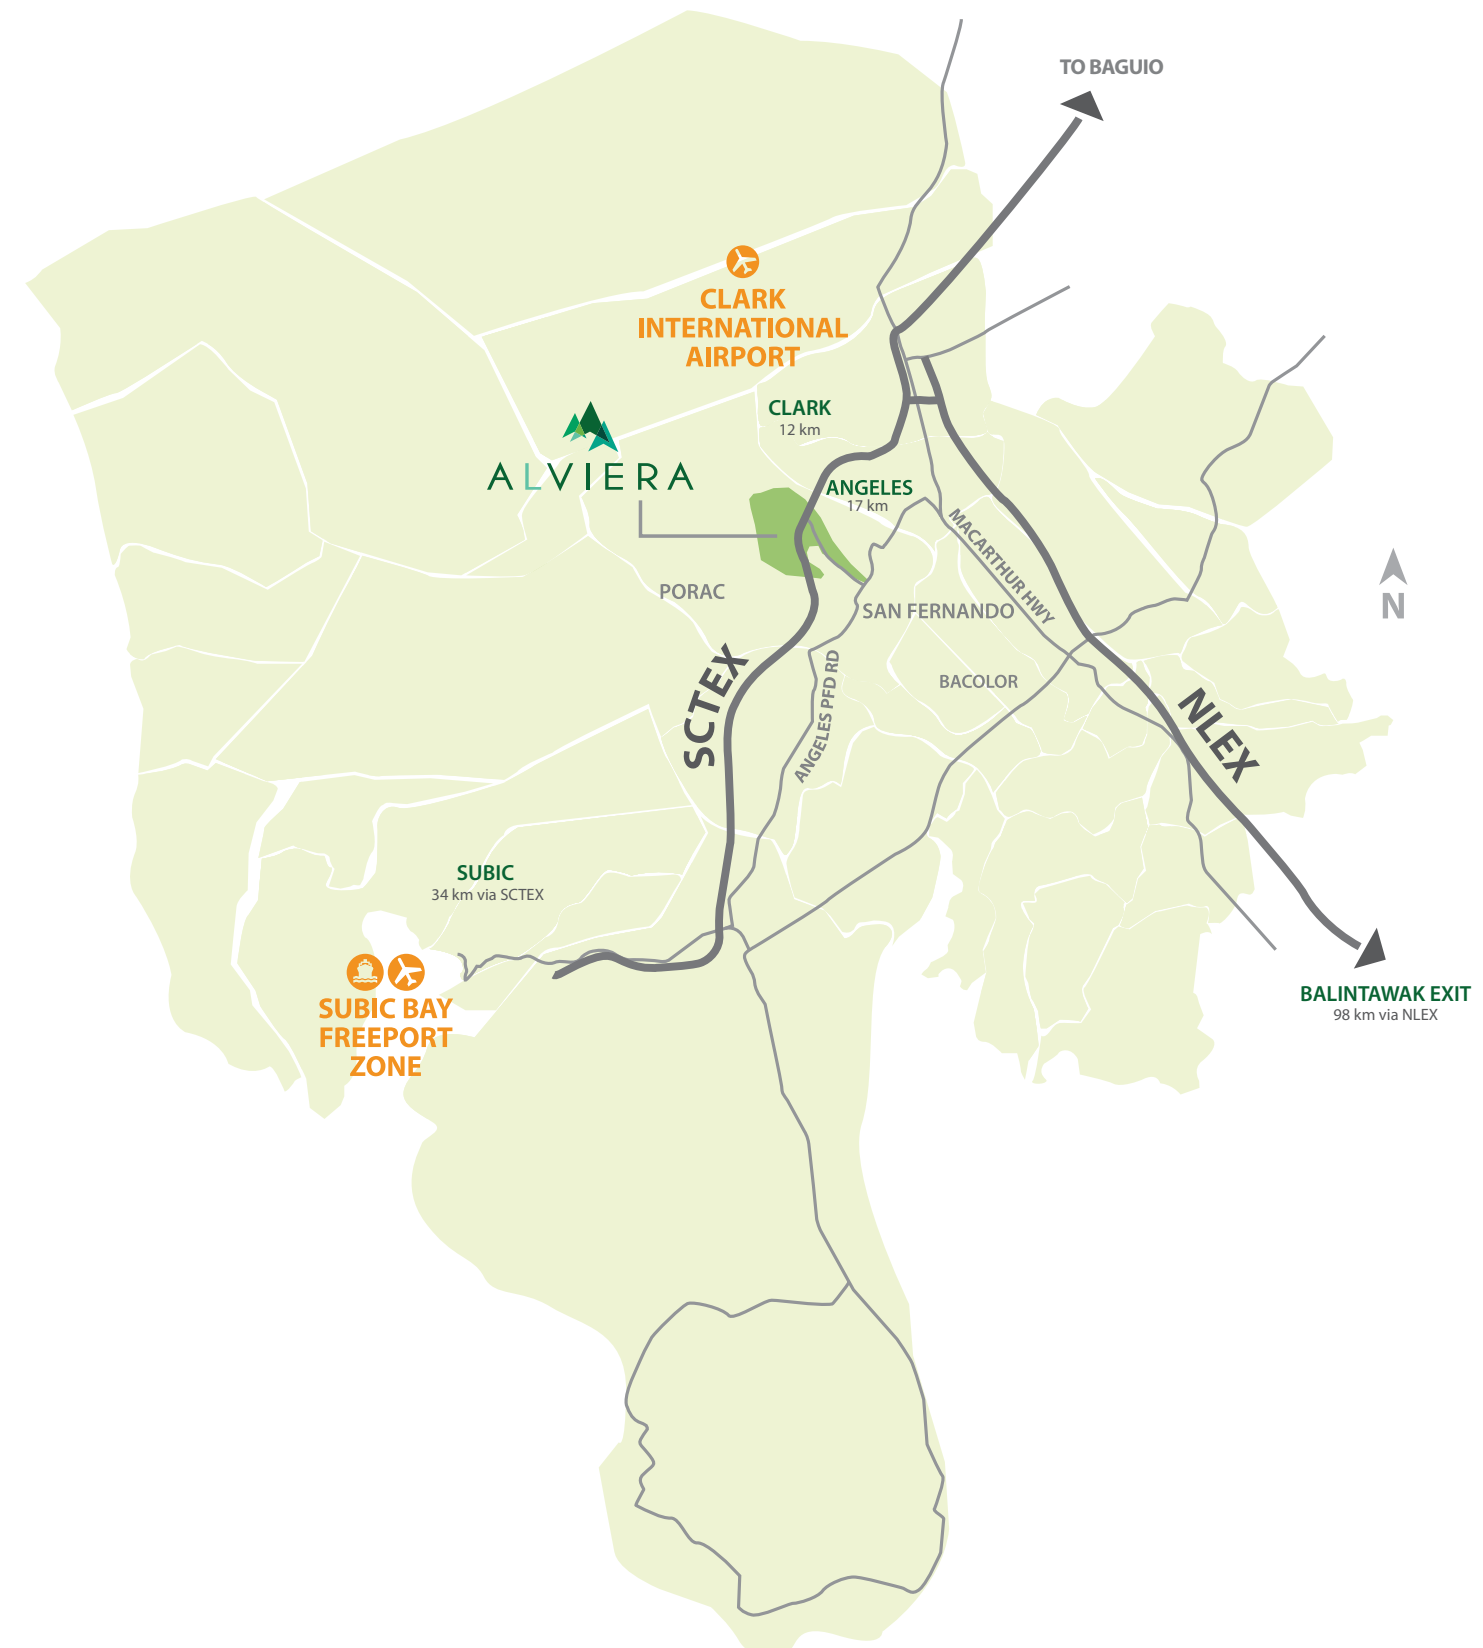

ALVIERA is a 1,800-hectare, large-scale, mixed-use estate in Porac, Pampanga. The estate mindfully integrates business and commercial spaces, leisure and tourism destinations, leading institutions, industrial parks, and residential communities, to an abundant landscape of green—growing opportunities for living and business in Central Luzon.

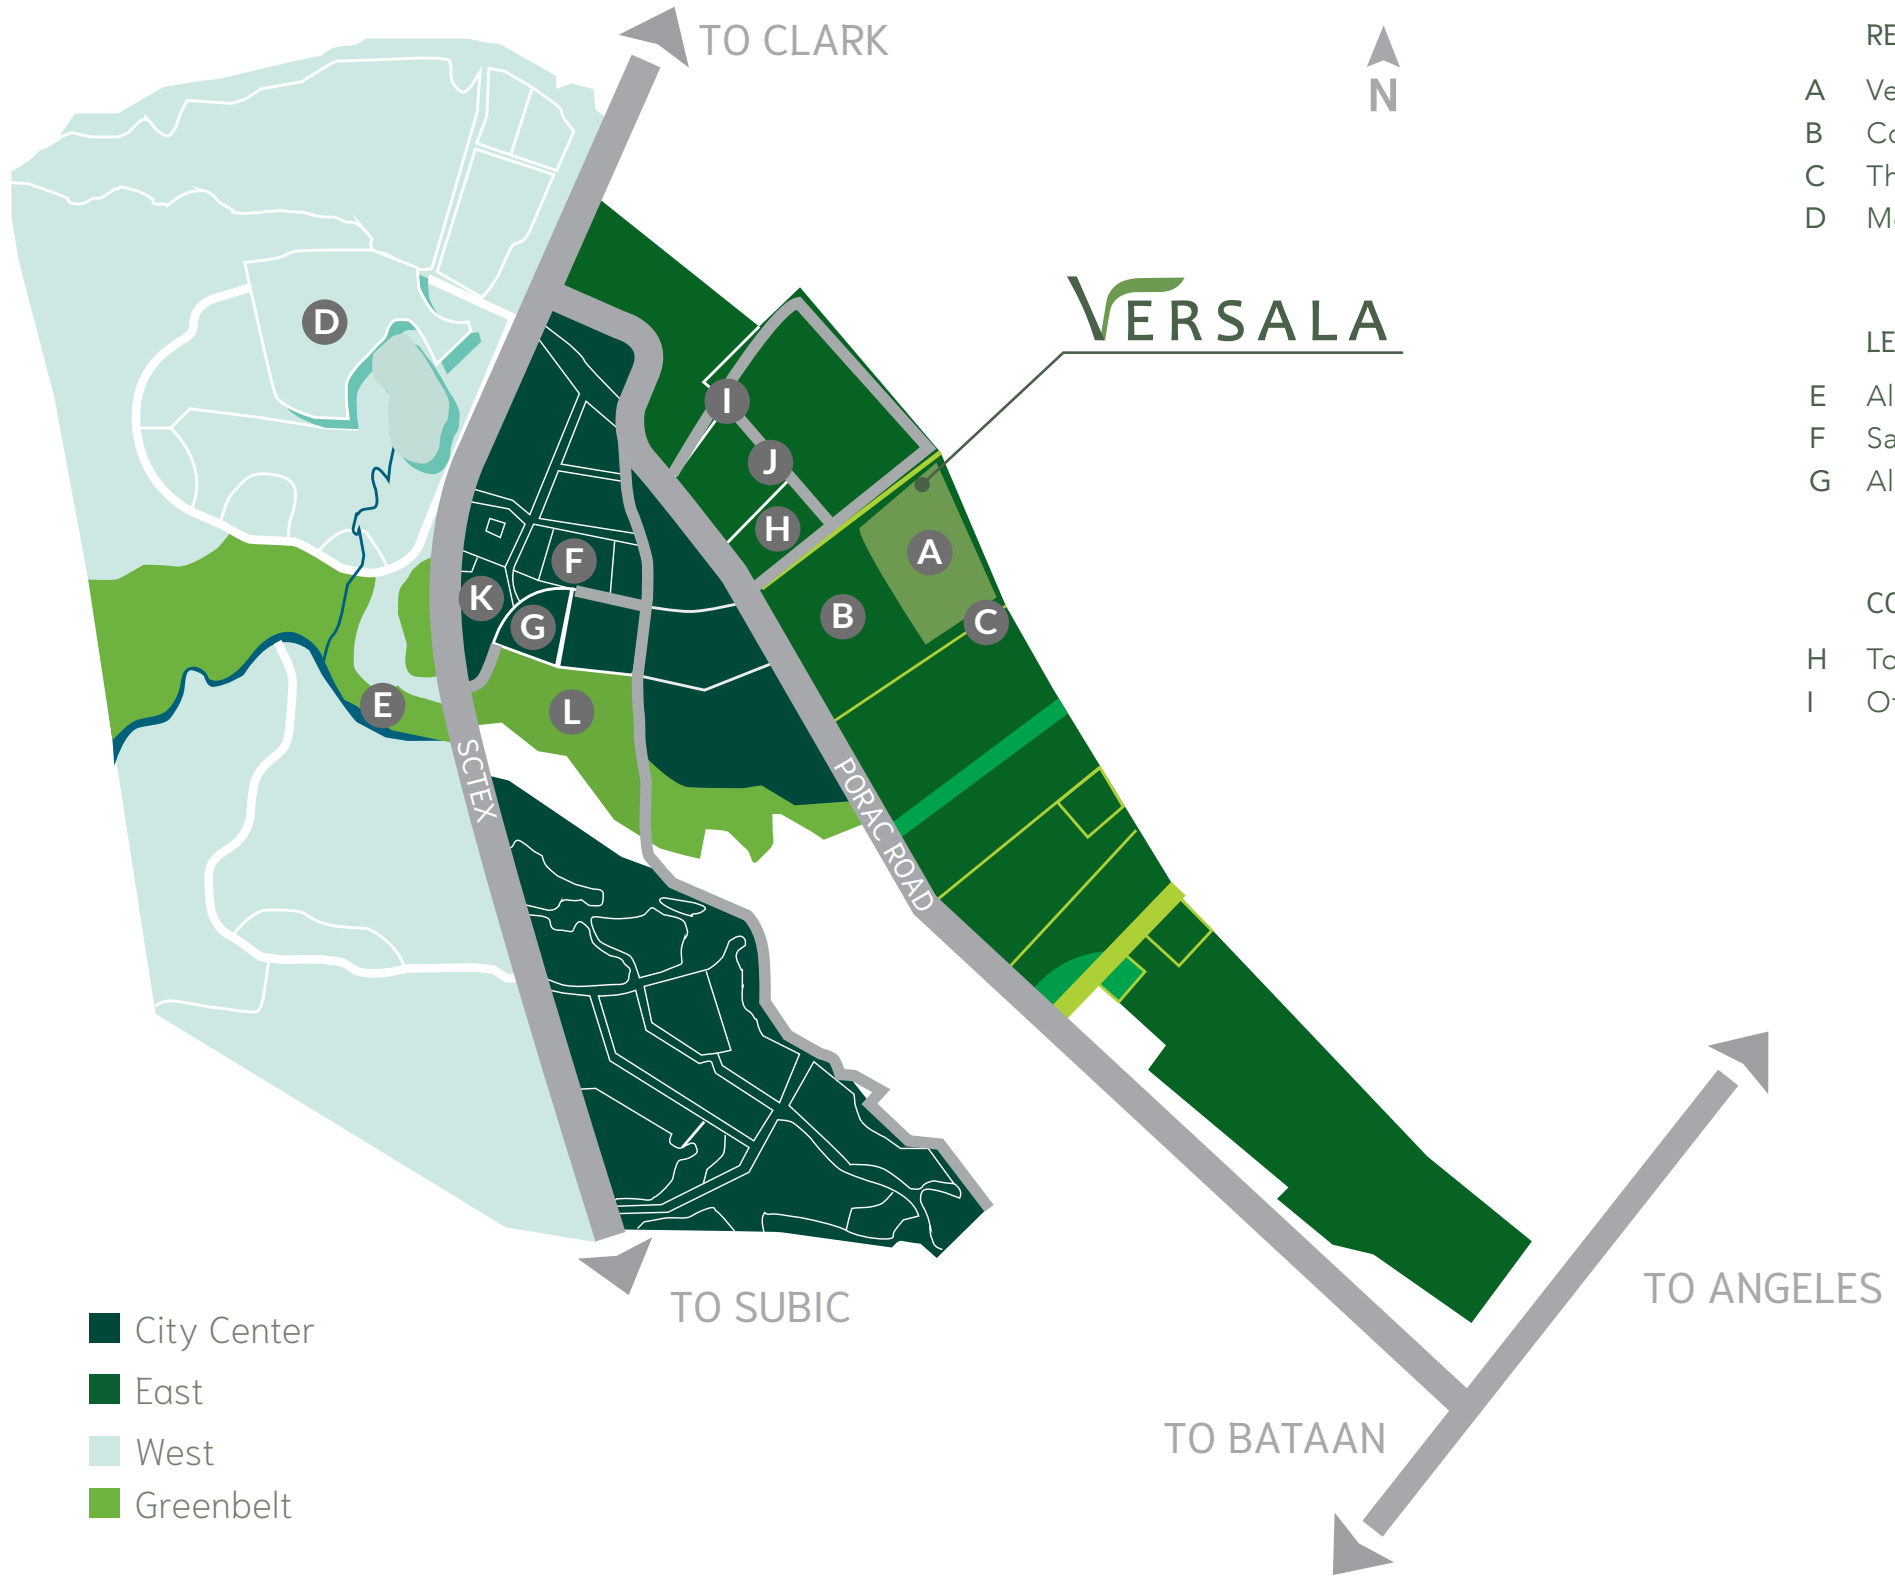

Amidst the Gateway to the North

ALVIERA is highly-accessible via major thoroughfares NLEX, SCTEX, and TPLEX, in proximity to key areas such as the Clark International Airport, Subic Freeport, San Fernando City, and Angeles City in Pampanga. The estate serves as the gateway to vibrant investments, amplifying economic vitality in the North.

DISTANCES TO KEY HUBS		ROUTE THROUGH EXISTING INFRASTRUCTURE
Clark	12 km	SCTEX
Angeles City	17 km	P. Santos/Santco St. > Dinalupihan Road > Porac Access Road
Subic	34 km	NLEX > SCTEX > Porac Access Road
Meycauayan, Bulacan	85 km	NLEX > SCTEX > Porac Access Road
Quezon City	98 km	Mindanao Ave. > NLEX > SCTEX > Porac Access Road

Key Areas

Alviera City Center

The core of Alviera, this area serves as the central business district with commercial and retail destinations, medical institutions, residential communities, parks, and open spaces creating a dynamic growth environment. This district is also home to the Alviera Country Club—the first of its kind in the region presenting areas for recreation, relaxation, and gatherings.

Key Areas

Alviera Greenbelt

This is a 5-kilometer verdant corridor crossing the East and West side. It encompasses the La Salle Botanical Gardens, which features 25 themed garden patches and will house a laboratory, plant nursery, greenhouses, and libraries.

Key Areas

Alviera East

The district features residential communities, Holy Angel University, and the Alviera East Commercial Hub housing a thriving industrial park and commercial center. The industrial park covers 64 hectares for light to medium, non-polluting industries such as food manufacturing, motorcycle assembly, packaging, logistics, and warehousing while a 7-hectare commercial hub opens business and investment potential.

Key Areas

Alviera West

Lush greenery and rolling terrain characterize Alviera West. The district's high elevation creates a vibrant atmosphere for leisure and tourism pursuits. Themed hotels, wellness centers, leisure developments, retail spaces, educational institutions, and residences with a panoramic view of the outstanding landscape provide a heightened perspective for urban living in nature.

Alviera Country Club

The first of its kind in the region, The Alviera Country Club is a sports and lifestyle hub opening areas for recreation, relaxation, and gatherings. Designed by Leandro V. Locsin & Partners, it is shaped to seamlessly integrate with the natural environment, creating meaningful spaces to connect and immerse in nature.
